

M.S. in COGNITIVE NEUROSCIENCE

A Smart Move

Prepare for fast-growing careers in health, high tech, and more.

- Learn about cognitive neuroscience from top faculty from throughout CUNY whose expertise spans neuroscience, psychology, mathematics, computer science, engineering, language sciences, and other related fields.

- Students design and conduct experiments with leading experts at our many labs and centers using the latest technologies, including fMRI and EEG.

- This multidisciplinary master's program is the only one of its kind in the United States.

- As a public institution, we offer a world-class education at a fraction of the cost of other universities.

- The curriculum is 32 credits. Foundational courses cover neuroscience, neuroanatomy, and statistics. Students specialize in a range of areas through electives.

- Graduates are set to excel in careers in health, technology, business, education, and more. The program is also excellent preparation for doctoral study.

- All applicants for all master's programs at The Graduate Center will be considered automatically for Dean's Merit Scholarships. For more information, see www.gc.cuny.edu/mascholarships.

Admissions

Students with a broad range of academic backgrounds are encouraged to apply.
