**THE
GRADUATE
CENTER**

CITY UNIVERSITY
OF NEW YORK

■ Our multidisciplinary program prepares students for academic and industrial careers in computational linguistics and natural language processing technologies.

■ Students can connect with our network of New York City industrial labs performing groundbreaking, internationally recognized research.

■ Students will work with renowned faculty from the linguistics and computer science communities.

■ As a public institution, we offer a world-class education at a fraction of the cost of comparable universities.

■ The curriculum is 32 credits. Topics covered in our courses include sentiment analysis, speech

recognition, machine translation, and information extraction. Part-time and full-time options are available.

■ A supervised research project helps students deepen their knowledge and experience.

■ All applicants for all master's programs at The Graduate Center will be considered automatically for Dean's Merit Scholarships. For more information, see www.gc.cuny.edu/mascholarships.

Admissions

Students with a broad range of academic backgrounds are encouraged to apply.
