<b>Description</b>			
requestor - Tsubasa Berg			
url - <a href="https://wordpress.org/plugins/custom-facebook-feed/#description">https://wordpress.org/plugins/custom-facebook-feed/#description</a>			
Description - "Display a completely customizable, responsive and search engine crawlable version of your Facebook feed on your website. Completely match the look and feel of the site with tons of customization options!"			
At my suggestion, Tsubasa tried RSS Super Reader, but was unable to get desired results, since "it excludes any posts that were shared from other pages." Tsubasa also likes the way the feeds are displayed.

This seems OK to me. We'll add it as part of the next release, on August 13.
