

CUNY Academic Commons - Bug #10101

URL changes within Manage section of groups

2018-08-02 04:14 PM - Marilyn Weber

Status: Resolved	Start date: 2018-08-02
Priority name: Normal	Due date:
Assignee:	% Done: 0%
Category name:	Estimated time: 0.00 hour
Target version: 1.13.7	
Description	
User Joanna Dressel writes: "I am an admin for the group https://commons.gc.cuny.edu/groups/comps-graders (https://commons.gc.cuny.edu/groups/comps-graders) . In the "manage" page (https://commons.gc.cuny.edu/groups/comps-graders/admin/edit-details), the link to edit "files" is incorrect – the url is https://commons.gc.cuny.edu/groups/%7B\$group_slug%7D/admin/documents/ , rather than https://commons.gc.cuny.edu/groups/comps-graders/admin/documents/ . This is also the case for all other groups I am an admin for. I can easily swap the group name in the URL, but wanted to let you know about the bug." Can this be fixed? Thanks!	

History

LMK if this isn't clear. I see it in my own test group as well - <https://commons.gc.cuny.edu/groups/marilyn-test-group/>. I'm inviting you (Boone) to be an admin there so you can see it (also screenshot attached of what happens when you click Files from the manage portal).

#2 - 2018-08-03 01:54 PM - Boone Gorges

- Status changed from New to Resolved

- Target version set to 1.13.7

Thanks, it's clear. The problem was introduced in <https://github.com/cuny-academic-commons/cac/commit/f13b56604e9135f644d39cfb1251f889fe3b5037> as part of a PHP 7-related fix.

I've put a fix in place in <https://github.com/cuny-academic-commons/cac/commit/61f8bea6493ad2c9267037b43ea5b5139bc485c2>, which is also in place on the production site.
