<b>Target version:</b> 1.15.3	
<b>Description</b>	
<p>A digital fellow makes the two requests:</p> <p>What's the name of the plugin/theme?</p> <ol style="list-style-type: none"><li>1) Customizr Pro Version</li><li>2) Search &amp; Filter Pro Version</li></ol> <p>In a few words, what does it do?</p> <ol style="list-style-type: none"><li>1) Customizr is a simple and fast WordPress theme designed to help you attract and engage more visitors. Provides a perfect user experience on smartphones. Powers more than 100K active sites around the world. Hundreds of 5-stars reviews received on WordPress.org.</li><li>2) Search and Filtering system for Pages, Posts, Categories, Tags and Taxonomies</li></ol> <p>Please provide a link to the plugin/theme on the WordPress theme repository or (<a href="https://wordpress.org/themes/">https://wordpress.org/themes/</a>) plugin repository (<a href="https://wordpress.org/plugins/">https://wordpress.org/plugins/</a>)</p> <p>Please research the release history and popularity of the plugin/theme. How many times has it been downloaded? When was it last updated?</p> <ol style="list-style-type: none"><li>1) Updated to version 4.1+ during the year 2018: <a href="https://docs.presscustomizr.com/">https://docs.presscustomizr.com/</a> (<a href="https://docs.presscustomizr.com/">https://docs.presscustomizr.com/</a>)</li><li>2) Search &amp; Filter Pro 2.0 was released in early 2018: <a href="https://www.designsandcode.com/25518/search-filter-2-0-released/">https://www.designsandcode.com/25518/search-filter-2-0-released/</a></li></ol> <p>How is the plugin/theme different from what's already provided on the Commons?</p> <p>We do not have access to the set of features that come with the pro versions of 1 &amp; 2. We are uncertain as to what specific features at the moment since the site is still in development. But as a guess,</p> <p>for 1: we would like access to "custom scripts" and "featured pages unlimited"</p> <p>for 2: we would like to the UI interface and ajax scripts</p> <p>Please let us know who you are (include a link to your site) and who will use this tool?</p> <p>I am the Digital Fellow for CLACLS at CUNY GC. The center will be purchasing the pro versions to build a webpage for the center using the WordPress based Commons platform.</p> <ul style="list-style-type: none"><li>• Please let me know if I, or CLACLS, need to provide any further information.</li></ul> <p>Anthony Ramos Graduate Student, CUNY Graduate School Cultural Anthropology   PRSG   AELLA <a href="http://www.linkedin.com/in/antonyramos">www.linkedin.com/in/antonyramos</a> (<a href="http://www.linkedin.com/in/antonyramos/">http://www.linkedin.com/in/antonyramos/</a>)</p>

- Status changed from New to Reporter Feedback

Hi Marilyn - Next steps are for Anthony and his team to do the following:

1. Review <https://dev.commonscs.cuny.edu/hosting-partner-handbook/#plugin-and-theme-requests>, especially the section on "proprietary" plugins. Once their office purchases the plugin, they're responsible for coming up with a mechanism (like a calendar reminder or whatever) to check on a regular basis for available updates.
2. Purchase the necessary licenses and, if appropriate, download the zip files containing the "pro" plugins.
3. Provide me with the plugin files as well as any relevant license codes. A Redmine ticket like this one is best, but it will need to be made private

before uploading.

4. Provide me with the URL of the site(s) where the plugins should be whitelisted for activation.
