

## CUNY Academic Commons - Bug #10952

### Duplicate privacy options in group-site creation

<b>Priority name:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category name:</b>	Group Blogs	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.14.5		
<b>Description</b>			
During the group creation process, in step #3 when "enable group site" is selected, it creates double privacy option settings for the linked site (screenshot below). A selection cannot be made for both sections, users can only select 1 of the 10 options. So it appears that the selection component is working correctly but the privacy section should only appear once.

- Category name set to Group Blogs
- Status changed from New to Staged for Production Release
- Target version set to 1.14.5

Thanks for the report! I've removed the duplicate in <https://github.com/cuny-academic-commons/cac/commit/a18a8484a2de360cc88a8a7530dda0ccb0db5800>. I also removed some of the other stuff (specifically Site Layout, which doesn't work in this context) from this page that's not supposed to be there.

The changes will be part of the 1.14.5 release, a week from tomorrow.
