

CUNY Academic Commons - Bug #1104

Remove WordPress Counter Plugin

Description

Tony Picciano wrote in to say that his blog was taking an extraordinarily long time to load. I guessed right away that the hit counter was causing the problem. And, indeed, when I disabled it (after waiting for various pages to load), the problem was resolved.

It looks like it's a bug in the plugin -- <http://wordpress.org/support/topic/severe-bug-with-wordpress-321> -- so I think we should remove it from the site.
