#### History

- Category name set to Group Blogs
- Target version set to Future release

Thanks, Tom. Previously: [#4676](#), [#3599](#), [#4636](#), etc.

The interface here would necessarily be somewhat different, as it'd appear in the WP Dashboard instead of our BP interfaces. This means we'd have to decide whether to support Gutenberg only.

Sonja, passing this to you so that you can give some thought to our Silent checkboxes as they appear throughout our interface, and to think about how/whether this would best integrate into the groupblog post flow.

##### #2 - 2019-03-01 02:07 PM - Boone Gorges

- Status changed from New to Duplicate

I just rediscovered [#10847](#), which is really the same request as this one. Let's consolidate discussion there. (Tom, I'll add you as a watcher.)

##### #3 - 2019-03-01 02:07 PM - Boone Gorges

- Is duplicate of Feature #10847: Select which blog posts are sent to group added
