<b>Description</b>			
For the courses page <a href="https://commons.gc.cuny.edu/courses/">https://commons.gc.cuny.edu/courses/</a> the current number of courses per page is 10.			
To be consistent this number should be increased to 20 (People, Groups and Sites all currently have 20 per page).			
This is also an opportunity to consider if 20 is the right number for all of these listings.

- Target version set to 1.14.8

Thanks, Chris. Let's table the broader discussion of counts for a separate discussion, but it makes sense to make the numbers match. We'll change Courses pagination to 20 for the next release.
