

CUNY Academic Commons - Bug #11388

Rewrite member search queries

2019-04-23 12:28 PM - Boone Gorges

Status: Resolved	Start date: 2019-04-23
Priority name: Normal	Due date:
Assignee: Raymond Hoh	% Done: 0%
Category name: BuddyPress (misc)	Estimated time: 0.00 hour
Target version: 1.15	
Description Member search queries should not touch last_activity in usermeta, as we're no longer mirroring it. See #11209 , #10687 .

Ray, I've assigned this to you - I think it's just a quick change in the JOIN in bp-better-directories. If it ends up being more complex and you don't want to deal with my mess, assign back to me :)

#2 - 2019-04-23 12:29 PM - Boone Gorges

also feel free to put into 1.15 - there will not be another release in the 1.14.x series.

#3 - 2019-04-23 12:29 PM - Boone Gorges

- Related to Feature #10687: Stop mirroring BP last_activity to usermeta added

- Category name set to BuddyPress (misc)
- Status changed from New to Staged for Production Release
- Target version changed from 1.15.1 to 1.15

Boone, I've rewritten bp-better-directories to use BP_User_Query here - <https://github.com/cuny-academic-commons/cac/compare/fdb03c4...c6b1e14>

I was going to add a PR to the bp-better-directories repo with my changes and found out that the code on the GitHub repo is different than on CAC:
<https://github.com/boonebgorges/bp-better-directories/blob/1.0.x/bpbd.php#L13>
<https://github.com/cuny-academic-commons/cac/blob/1.15.x/wp-content/plugins/bp-better-directories/bpbd.php#L15>

The code on Github seems to be newer and supports additional things like custom templates, but I used a slightly different approach in constructing the query.

I'm guessing the one we use on CAC is specialized to bp-nelo / bp-default. Anyway, let me know if you want me to send a PR.

#6 - 2019-05-07 03:22 PM - Boone Gorges

- Status changed from Staged for Production Release to Resolved

#7 - 2019-05-07 03:58 PM - Boone Gorges

Thanks, Ray! I don't think it's necessary to send a PR - no one is using that plugin :)
