linadvertently added an incorrect folder on my file list for my group site: https://commons.gc.cuny.edu/groups/f19-urban-ed-course-historical-perspectives-on-urban-education/documents/ . I can't figure out how to delete the incorrect folder (which is empty). It's the one named "Oct. 3 Readings" (not Oct. 2 Readings, which is the correct one). Any thoughts about how to do that? Tnx. I don't see a way to delete a group folder -- if there isn't, can you manually delete it for him? Thanks

Sure thing. I've manually deleted the folder.

It looks like the Delete feature doesn't exist, so I've created a ticket for it: [#11755](#).
