Description			
Hi Ray,			
Could you help us modify the event post so that the venue description is displayed below the name of the venue?			
Here is the venue description on the venue page: https://gcdi.commons.gc.cuny.edu/venue/digitalgc-3/			
We want the description displayed at the bottom of an event post such as this one, just below the venue name: https://gcdi.commons.gc.cuny.edu/event/manifold-minis-series/2020-04-14/			
I've attached screen shots to help explain as well.			
Is this possible at this time and how big of a lift is it?			
Thanks for considering this, kristen

Kristen, I've made the change [here](#). This will be ready for the next maintenance release scheduled for next Tuesday.

Boone, I've updated the ACTION_REQUIRED post because a submodule update will need to be made.
