Description			
Hi Jesse,			
I just upgraded the regular Events Calendar plugin due to my regular updates and now the The Events Calendar is asking to update its Pro plugin to 5.1.0+ and the Filter Bar plugin to 4.10.0+ in the dashboard.			
Can you provide the ZIP files for these plugins to me? Also, for future updates, would you prefer I hold off from updating Events Calendar until a later date or to continue asking for the latest versions as needed?			
Thanks!
