

CUNY Academic Commons - Support #13173

all uploads to the library are silent

2020-08-10 02:30 PM - Marilyn Weber

Status:	Resolved	Start date:	2020-08-10
Priority name:	High	Due date:	
Assignee:		% Done:	0%
Category name:	Group Library	Estimated time:	0.00 hour
Target version:	1.17.1		

Description

I (Marilyn) uploaded a JPEG to a class group that I am helping out with. I did not click silent upload, but no one received a notification.

I tested it in my own private group where I am using one of my identities as an admin and another as a member. Same story - the document is uploaded without problem, but no notification is sent. I'm marking this as High because I have a fairly anxious professor who'd like to make sure her readings go out before classes begin.

History

- Category name set to Group Library
- Status changed from New to Reporter Feedback
- Target version set to 1.17.1

Thanks for the report. Somehow it was missed during QA that the new way of uploading files to a group doesn't trigger the activity items generated by buddypress-group-documents. I've made a change in <https://github.com/cuny-academic-commons/cac-group-library/commit/a9aba0fd90bf0f067a9c326905718a7f03a16602> that should fix this. It is live on the production site.

Terrific, resolved!

#3 - 2020-08-10 04:12 PM - Boone Gorges

- Status changed from Reporter Feedback to Resolved

Thanks!
