Description			
Hi - I recently activated this plugin, which looks like it would be really useful, but it seems to have some permissions issues. I have attached a screenshot of what I am seeing.

Ugh. Thanks for the report, Scott. This is a sign that the plugin author is doing something stupid. I'll have to take a look to see if it's worth patching the plugin to do it the right way, or if we'll have to abandon it for another plugin.

Can you try this again, Scott? I changed some permissions data.

Sorry Boone. I must have missed your response. I tried it again and still got the same message: "You do not have sufficient access rights to use this plugin." I tried deactivating and reactivating, but no dice.

- Status changed from Reporter Feedback to Hold

In <https://github.com/castiron/cac/commit/e789bc69368a6e674b024c1ffe7d39490b0fdf23>, I make a change that may (I'm hoping?) fix your issue. Unfortunately, I'm having a hard time reproducing precisely the errors you've shown in your screenshot - apparently my Google Account info isn't working right. I'll probably ask you to check this again after the next release. When that time comes, I'll switch the ticket back to Reporter Feedback.
