Description			
Hi All,			
Beginnings of the OER Project Showcase page are here: https://commons.gc.cuny.edu/open-educational-resource-projects-on-the-commons/			
Right now it is limited to projects that have been developed since CUNY began receiving OER funds from the state.			
If we want to go further back (there are some open ed projects from 2011, 2015, etc) we can, but wanted to get feedback and discuss the aim of the page (e.g. are we trying to highlight grant funded projects or all open ed work on the commons?)			
Thanks, Laurie
