

CUNY Academic Commons - Bug #1461

Strange Behaviour in the Activity Stream

2011-12-17 03:35 PM - scott voth

Status:	Resolved	Start date:	2011-12-17
Priority name:	Normal	Due date:	
Assignee:	Boone Gorges	% Done:	0%
Category name:	BuddyPress (misc)	Estimated time:	0.00 hour
Target version:	1.3.1		
Description			
Hi - I created a page called "Release Notes" in Commons News (http://news.commonsc.gc.cuny.edu/category/release-notes/). I simply added a category ("Release Notes") to each of the four announcement posts (1.0, 1.1, 1.2, 1.3) and it seemed to generate 4 items in the site-wide activity stream, each referencing "test private group 2". At least I think I am the one who caused it. See the image attached below.

History

#1 - 2011-12-17 03:40 PM - Matt Gold

- Status changed from New to Assigned
- Assignee set to Boone Gorges
- Target version set to 1.3.1

interesting. I think Sarah reported a related issue here - <http://redmine.gc.cuny.edu/issues/1447>

#2 - 2011-12-18 09:00 PM - Sarah Morgano

It looks like the Brooklyn Waterfront Research blog may also be affected in same way. I just noticed that their posts from the past few months now appear on the top of the activity stream for the news/homepage.

The "posted in the group" bit is a duplicate of [#1447](#).

The bump-to-the-top is changed behavior in BP 1.5, which has been changed again for BP 1.6. See <http://buddypress.trac.wordpress.org/ticket/3556>. I will backport that change to the Commons.

#4 - 2011-12-19 08:33 AM - Boone Gorges

- Status changed from Assigned to Resolved

Fixed in <https://github.com/castiron/cac/commit/7fa3d86ea15ee481011a6a6e0a5ab07cab98a78a>
