

CUNY Academic Commons - Bug #1481

Seeing nocache in URL after logging in

2011-12-20 09:20 AM - Matt Gold

Status:	Resolved	Start date:	2011-12-20
Priority name:	Low	Due date:	
Assignee:	Boone Gorges	% Done:	0%
Category name:	WordPress (misc)	Estimated time:	0.00 hour
Target version:	Future release		
Description			
Afer I log in to the Commons on Chrome/Mac OS X, the URL reads: http://commons.gc.cuny.edu/?nocache=1 . I realize that the nocache is meant to solve some of the caching issues we've had lately, but is there any way to strip it from the URL that users see?			

History

#1 - 2011-12-20 09:21 AM - Matt Gold

- Subject changed from Seeing nocache in URL after logging to Seeing nocache in URL after logging in

#2 - 2011-12-20 10:33 AM - Boone Gorges

- Status changed from Assigned to Rejected

No, there is no way to fix it without another costly redirect. It only happens after login, so I think it's pretty insignificant.

#3 - 2011-12-21 02:00 AM - Matt Gold

Okay, but it seems a bit inelegant to me. I'd say that it would be worth exploring, at some point, some alternative possible ways of solving the caching problem and/or removing the extraneous text from the URL.

#4 - 2011-12-21 07:46 AM - Boone Gorges

- Status changed from Rejected to New
- Assignee deleted (Boone Gorges)
- Priority name changed from Normal to Low
- Target version changed from 1.3.3 to Future release

#5 - 2012-07-16 12:37 PM - Boone Gorges

- Status changed from New to Reporter Feedback
- Assignee set to Boone Gorges

I don't think we handle logins like this anymore. Please verify, and I'll close this ticket.

#6 - 2012-07-16 12:58 PM - Matt Gold

- Status changed from Reporter Feedback to Resolved

Yup -- all good.
