I've tested on 8 different browsers and two operating systems and can't reproduce it. (I can't even reproduce it in Firebug, by manually adjusting padding.)

However, adding a declaration that whitespace in those links should never wrap should fix the problem, and ought to be harmless. Fixed in <https://github.com/castiron/cac/commit/c3ba7cb277102c9676b2958018be85255dd1bbfa>
