Description			
<p>Not sure why this happened, but it looks like the settings on the gallery slider widget were reset, perhaps with our most recent WP upgrade -- I used to have it set to show 30 slides or so; now it's set at 10.</p> <p>Marking resolved because I just manually reset it, but if this will happen every time we upgrade, maybe we can add a reminder to fix it before launching after upgrading?</p>
