<b>Description</b> Hi André,  We've got a couple more sites that are going to be hosted on the Commons, using their own domains. Could you please create vhosts for the following:  preludenyc.org  There'll be another one, but I don't know the domain at the moment - I'll update here when I do.

Hey André. The other domains are

thesegalcenter.org  
martinesegaltheatrecenter.org  
mestc.org

I'm bumping this up in priority because the user's launch is dependent on getting these up. Thanks!

Preludenyc.org is not broken anymore, but rather than going to preludenyc12.commonsgc.cuny.org it is just going to commonsgc.cuny.edu

Thanks, André, looks great!

Kimon - I had to reapply the domain map on the WP side. It's all set up now: <http://preludenyc.org>
