Description

Hi Boone,

I can't find the ticket (maybe we addressed it on Github), but my impression is that a fix is already into the codebase to address the prominent header display problem on <http://commonsinbox.org>. If it wouldn't take you long to update the theme to fix that and wouldn't take an inordinate amount of time away from more pressing tasks, can you update the theme? many thanks.

- *Category name changed from WordPress (misc) to commonsinbox.org*

- *Status changed from Assigned to Resolved*

The issue was fixed in cbox-theme, and commonsinbox.org is running a recent version, so I'm assuming the issue is fixed. If I'm incorrect, please feel free to reopen with steps to reproduce.
