<b>Description</b>			
<p>Hi Scott. This morning I added a plugin called BP Group Announcements to the Commons In A Box package. (See <a href="https://github.com/cuny-academic-commons/commons-in-a-box/issues/32#issuecomment-10718476">https://github.com/cuny-academic-commons/commons-in-a-box/issues/32#issuecomment-10718476</a>). Could I ask you to create a documentation page for it on commonsinbox.org? In a nutshell, the plugin:</p> <ul style="list-style-type: none"><li>- removes the What's New box from the group home page</li><li>- creates a new Announcements tab on groups, which lists group updates ("announcements") for all members, and also shows the What's New box to group and site admins</li></ul> <p>This is pretty much what we have running on CAC, with the exception that there is currently no "email this update" checkbox.</p> <p>If you want to check the plugin out for screenshots, you can get it through the latest Commons In A Box master <a href="http://github.com/cuny-academic-commons/commons-in-a-box">http://github.com/cuny-academic-commons/commons-in-a-box</a>, or by downloading the plugin directly from <a href="http://github.com/cuny-academic-commons/bp-group-announcements">http://github.com/cuny-academic-commons/bp-group-announcements</a></p> <p>Thanks!</p>
