Description			
<p>Hi - Amelia reported that when clicking on page two of Help & Support forum posts - she gets "Oh bother! No topics were found here!". I've tried, and I just get the post new topic screen. In any case, I think there might be a pagination issue.</p> <p>Not sure if this is just pertinent to commonsinbox.org - or CBOX - so posted here.</p>

This is a bug in bbPress. I've reported it and suggested a fix at <http://bbpress.trac.wordpress.org/ticket/2080>

I've also put a hotfix into place on commonsinbox.org.
