

CUNY Academic Commons - Bug #2337

commonsinbox.org - notifications

2012-12-09 05:38 PM - scott voth

Status:	Rejected	Start date:	2012-12-09
Priority name:	High	Due date:

Category name:	commonsinbox.org	Estimated time:	0.00 hour
Target version:	Not tracked		
Description			
Hi - It's weird, but I stopped getting CBOX notifications on Dec 5. I checked on the settings, and they all look good. But then I looked in the general settings, and noticed that my email address is now Boone's email address. So I am sure that's the reason. Any idea how that happened, and is it okay that I change it back? At the top of the screen it shows that I am logged in. Wondering if anyone else had that problem.

- Target version set to Not tracked

Scott, can you give more details?

I looked in the general settings

What are "the general settings"? Do you have a URL?

my email address is now Boone's email address

Which of my email addresses do you see?

Did you change things back? I'm looking through the database and don't see any problems with email addresses.

- File booneWeirdness.PNG added

Hi Boone - I changed it back, since it was so inconvenient not to get notifications. It was on the General settings in WordPress. I took a screen shot before I changed it back and have attached it below. It was Boone@gorg.es.

- Status changed from Assigned to Rejected

Thanks, Scott. I can't find any evidence that this is a systematic problem. I created your account manually, and it's possible that I accidentally did something to change your email address.

Let me know if this comes up again, and please don't correct the problem until after I've had a chance to look at it.
