Description			
All - I would appreciate if we could try adding the Expositio Theme to the commons for a project that I am doing with the Advanced Research Collaborative. It is free and downloadable here - http://wpshower.com/themes/expositio/

Boone, Matt, Matthew,

I've added the Expositio theme for the 1.4.14 release, and added a reminder to [ACTION REQUIRED](#) to notify Matthew that this theme is ready to go.

I ran it through Theme Check and didn't see anything besides the common Required/Warning messages for some of the more basic and common theme features that are either missing or using slightly old API calls. I don't think there's any code in this theme to be worried about.
