<b>Target version:</b>	
<b>Description</b>	
Issue history with Matt and Alex	
<p>The javascript tutorial on the activities section is screwy on the when you click on the 'next' button. [can you describe what you mean by "screwy" and/or take a screenshot/screencast? Also describe your browser/os. Just tried it and it worked okay for me --MKG][Hard to try again once you've been through it. seems only to work on first run. i saw two things. on click the arrow box turned into a blank square of a different size. on the last page, hovering on the drop-down menu, the pop-up box is cut in half by the browser window. i'm using Chrome on LionOSX. AG][thanks for this report, Alex. Can you add it here - <a href="https://github.com/cuny-academic-commons/cbox-theme">https://github.com/cuny-academic-commons/cbox-theme</a> ? --MKG]</p>	

#### History

##### #1 - 2013-05-16 09:41 PM - Matt Gold

- Tracker changed from Feature to Bug
- Status changed from New to Reporter Feedback
- Assignee set to Alex Gil
- Priority name changed from Normal to Low

##### #2 - 2013-05-18 02:54 PM - Alex Gil

I posted the issue on the general github for c-box as Matt suggested.

##### #3 - 2013-05-18 02:55 PM - Alex Gil

- Status changed from Reporter Feedback to Hold
