Confirmed on new user profile creation (e.g., <http://nycdh.org/members/anarchivist/>)

Website and twitter links should search site for reference to handle/url or should link out (as the Blog address does)?

Hi Matt,

Boone added a fix for this in CBOX:

<https://github.com/cuny-academic-commons/commons-in-a-box/commit/2788bd2431a56e131f8e8a252dd6345b23d6d3>

Which will make its way into the next CBOX release. Let me know if we need to apply something on the NYCDH site before then.

Nope, that's great. Thanks, Ray.

CBOX was just updated on NYCDH.org, so this should be fixed.

Please let me know if this addresses this issue.

Looks like this is working. Closing another one.
