Thanks for the report, Erika. Though this will soon roll off of the homepage, I'm upping the priority/status given the prominence of the issue.

@Matt thanks so much! it can't roll off soon enough!

Looks like the issue is that WP's oEmbed feature (which turns youtube URLs into video embeds) is running when it shouldn't. I've removed it in <https://github.com/castiron/cac/commit/38f612776cb0f00700265194bc0f4ec1cddf52e4>.

@Boone -- oh good. it also did that in the Activity feed too (<http://fellowships.commons.gc.cuny.edu/>). sorry forgot to mention that.... Erika
