

## CUNY Academic Commons - Bug #2845

### Anchor errors with bp activity items created from associated blog postings

2013-10-23 05:17 PM - Matt Gold

<b>Status:</b>	Resolved	<b>Start date:</b>	2013-10-23
<b>Priority name:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Boone Gorges	<b>% Done:</b>	0%
<b>Category name:</b>	BuddyPress (misc)	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.5.7		
<b>Description</b>			
When a new post is made on the CUNY DHI blog - <a href="http://cunydhi.commons.gc.cuny.edu/">http://cunydhi.commons.gc.cuny.edu/</a> - an activity item is created in the group associated with that blog			
<a href="http://commons.gc.cuny.edu/groups/digital-humanities-initiative/">http://commons.gc.cuny.edu/groups/digital-humanities-initiative/</a>			
The problem is that the activity notification contains a non-working link to the post, because the start of the post is included in the URL. Please see attached screenshot and let me know whether you want me to forward a notification to you.			

#### History

##### #1 - 2013-10-23 06:00 PM - Boone Gorges

- Target version set to 1.5.7

This is a problem with how your client parses links, not with the email notification per se. But it should be fixed if we enforce a space after the bracket.

##### #2 - 2013-10-24 12:40 AM - Matt Gold

Great. The client in question is gmail through the chrome browser, which multiple users may use, so it would be great to fix this by adding an extra space. Many thanks.

##### #3 - 2013-11-01 08:15 PM - Boone Gorges

- Status changed from Assigned to Resolved

Fixed in <https://github.com/castiron/cac/commit/56d4d29330fc5cd792aa5987ba0a45773189e938>
