

CUNY Academic Commons - Bug #2882

Consistent use of 'People' (as opposed to 'Members')

Description [From the Pratt Usability Study] WP default is 'Members', CAC default is 'People'. Make the nomenclature consistent throughout. Can it be done by editing a l14n (localization) or i18n (internationalization) file? Originally 'Members' was thought of as 'too exclusive' - besides 'People,' what about 'Community'?

I'm attaching some images with proposed changes. Most of the changes are changing Members to People. For the directory People Directory didn't sound right so I changed that to CUNY Academic Commons Directory.

I think the use of Members is appropriate when referring to Group membership so that should stay.

Current on the left, Changes on the right.
