I've added the content in <https://github.com/castiron/cac/commit/7c3be38e20eec963eb2b7366f64148b4d53c715b>

Kimon, you can embed the content using the shortcode [jitp-diglitstudies]. I wasn't sure what size you wanted, so the shortcode supports height and width attributes:

```
[jitp-diglitstudies width="600" height="800"]
```

Hopefully that'll be enough to make it look the way you need it.

It'll be ready to use after tomorrow's 1.5.9 release.
