Target version:	1.5.14		
Description			
Error occurs when attempting to send invites to a group. Steps taken: 1. type in a name in "Search for members to invite" box 2. Name appears, click on it 3. -1 appears instead of the name in the pending area. It appears that the name is never really added as clicking Send Invites does not send an invitation. Same problem on hidden, private and public group Tried on Chrome 31.0.1650.63, Firefox 26.0 both OS X 10.7.5

Thanks, Chris. It does look like this was caused by the fix in [#2944](#).

Fix is in <https://github.com/castiron/cac/commit/6db8cab484dbd12037a7fb49ae8164fccbe8aae4>
