Description			
<p>http://wordpress.org/themes/minimatica has a sliding-door style homepage for high visual impact, making it attractive for resume or portfolio sites with a few major categories or site areas; the sliders can also be populated by featured images from posts in a blog. Interior pages are clean with one sidebar and a footer-located menu.</p> <p>The theme has been downloaded 332,325 times and earned 4.3 / 5 stars with 32 ratings.</p> <p>I would like to try this theme for my personal site, inspired in part by http://lfreer.net, but have not yet done so.</p>

Hi Ben - Minimatica was actually already installed, but was not enabled for users. I've turned it on.
