

CUNY Academic Commons - Feature #3063

Minimize Profile Top Info on Commons Profile Pages

Category name:	Public Portfolio	Estimated time:	0.00 hour
Target version:	1.5.22		
Description			
<p>When you are on profile pages the top, black part of the profile slides up to a minimized state as you scroll down the screen. This ticket is to change all pages in the Commons Profile tab so that the bar is always in that state on those pages. An alternative, equivalent, solution is to just change the HTML for those pages so only the name and picture information are visible (same as minimized state).</p> <p>This change would effect the following pages for members:</p> <ul style="list-style-type: none">• Activity• Profile• Sites• Messages• Friends• Groups• Send Invites (and received invites)• Settings (includes notifications) <p>This change would not effect the Public Portfolio page which would continue to show all content.</p>

Tested this by going to a profile and clicking on the Commons profile areas, where I saw the minimized header. Looking good to me.

I took a look and it is looking good to me. I'm ready to release it.

Agreed -- we're talking about this now on the Community Team meeting. I think we should release in the next dot dot release, and maybe announce when we announce 1.6, since this is a really good and necessary fix that will do a lot to improve the user experience.

- Status changed from *Testing Required* to *Assigned*

Please add to the next 1.5.x release - and we should include this in 1..6 publicity.
