Description			
Per Sarah's recent ticket comment - http://redmine.gc.cuny.edu/issues/3033#change-14869 - I checked for the Attitude theme and found it wasn't enabled. I enabled it, but I also saw that the "Aware" theme wasn't enabled. I enabled that one, too, but I don't know whether it was recently added or added earlier and then disabled after one of our theme reviews. Can you please do a quick run through the themes and enable any recently added ones? Thanks.

I found two non-network-enabled themes where I wasn't sure from the related ticket/commit messages whether they ought to be network activated. Please advise.
