Description			
Boone,			
I've upgraded 16 plugins in a topic branch and pushed that to Github. It was either last month or the month before where I missed or incorrectly upgraded a plugin that caused some issues on a pretty high profile site (Kimon's MESTC?). So I wanted to open a ticket so we can agree on the merging of plugins first.			
Here is my spreadsheet outlining this month's upgrades:

And here is the topic branch commits:

If everything looks good to you I can merge and push whenever you'd like.

I also drafted your release post to make things a little easier on you. It's in the Commons Dev Blog post list waiting for whenever you're ready.
