<b>Description</b>			
<p>I believe that the plugin Scribd iPaper which has allowed for Scribd embeds for a while, but hasn't been updated in many years, finally died with a recent WP upgrade. I think that the functionality can be reproduced somewhat by Jetpack, so you might want to alert people using the old plugin to switch.</p> <p>Another solution is the new (but unrated) plugin Scribd Doc Embedder. I would like to request that it be added to the Commons as it provides extra shortcode customization functionality that Jetpack does not provide.</p>
