Description			
<p>Rebecca Sheahan just reported that the dynamic gallery on the Home page of http://thesegalcenter.org/ is not working. They added another image yesterday and she thinks that when the problem started. She also reported that the publications page is missing all of its content: http://thesegalcenter.org/publications/.</p> <p>Kimon Keramidas was cc'd on the email so I've added him as a watcher to this ticket.</p>

Kimon, can I ask you to jump in with addition details when you get a chance? I don't know enough about how the site is supposed to be very efficient with debugging.

Dynamic Content Gallery plugin had been set to JQuery rather than Mootools setting under Javascript options. This worked fine up until the most recent Wordpress upgrade. Changing to Mootools has fixed the problem. Will now look at Publications page.

Publications page was broken because new version of Wordpress Random Image plugin has a bug when using more than one shortcode per page. Removed shortcodes and made what had been random images into static images.

Thanks for troubleshooting, Kimon. Sounds like we can close this?

- % Done changed from 0 to 100

Both of these problems are now fixed. Thank you for tracking on the Commons. Those two new changes/problems to WP plugins Dynamic Content Gallery and Wordpress Random Image might be something the Commons looks into. This ticket can now be closed

Thanks, Kimon!

Sarah, may I ask you to set up separate issues for the two plugins Kimon mentioned? Thank you.
