Description			
Received a notice of a double posting when I sent a forum reply by email. Our usual fix for that is to deactivate and then reactivate BuddyPress RBE, but I can't seem to find it (it appears to be deactivated on the Network Admin plugin menu). Can you please deactivate/reactivate and also let me know where this should be done? Thanks.

I've turned it on and off again.

You can do so yourself at <http://commons.gc.cuny.edu/wp-admin/plugins.php>. (NOT the Network Admin.)
