<b>Description</b>			
Attached is a new Prelude 14 theme. This theme should be made available only to the blog at:  preludenyc14.commonsgc.cuny.edu.  If this could make it into the Commons upgrade on June 11th that would be much appreciated as we need to release this page ASAP in order to begin advertising and marketing the festival. Thank you very much.  Cheers Kimon

Hi Boone,

I was wondering if you might be able to add a few plugins that I'll be using on the Prelude14 site. They are all part of the Advanced Custom Fields plugin family (<http://www.advancedcustomfields.com/>). I've attached them here as zip files. I haven't made any changes to how they were packaged by the developer.

Thanks so much!  
Alex

Alex - I've double checked and it looks like the licenses are compatible with our setup. I'll look them over and include them in the next release.
