Description			
<p>Currently we have preludenyc.org pointing to http://preludenyc2013.commonsc.gc.cuny.edu/ with the new festival coming in October we are going to shift that domain to http://preludenyc14.commonsc.gc.cuny.edu/. This is just like what we did last year in this ticket: http://redmine.gc.cuny.edu/issues/2668</p> <p>If this could be done in conjunction with the June 11th update of the Commons, that would be great.</p> <p>Cheers Kimon</p>

Boone, do I need to ask IT to do this or can you do it?

I can do it. I've made a note in my release notes. I'll update this ticket after the change has been made.

I've moved the pointer over.

I've also gone ahead and activated the Prelude.14 theme.
