Target version:	1.6.6		
Description			
Hi,			
I've made a child theme for murphyinstituteblog.org. The site currently uses twentyfourteen.			
It's fairly straightforward — adds an image map to the header, and places the description of a category at the top of its category page. Zip file is attached.			
Please let me know if you need any further info from my end and/or if there's a particular format I should be using for submitting child themes updates in the future.			
Thanks so much.			

History

#1 - 2014-06-09 09:38 PM - Matt Gold

- Category name set to WordPress Themes
- Status changed from New to Assigned
- Assignee set to Boone Gorges

#2 - 2014-06-10 10:04 AM - Boone Gorges

- Status changed from Assigned to Resolved
- Target version set to 1.6.6

The zip format is fine, Leah. Thanks.

I've renamed the theme to make it a bit more obvious what it's for. It's now called "murphyinstituteblog.org - Twenty Fourteen child theme". It will be available at Dashboard > Appearance > Themes after the 1.6.6 release tomorrow. I'll update this ticket when the release is live.

#3 - 2014-06-11 09:22 PM - Boone Gorges

Hi Leah - The theme is now available on murphyinstituteblog.org.
