Description

Hi Ray,

I know you've sent me the link to the registration plugin you created that restricts sign-ups to .org and .edu domains, but I can't find it. Can you please also remind me whether you've packaged that plugin for public release? If not, can you please budget some time to do so?

Hi Matt - I'm writing documentation page for CBOX registration, so I know that it is called BP Restrict Signup By Email Domain - and is available on github here - <https://github.com/r-a-y/bp-rsed>

- Subject changed from Registration Plugin to Package Registration Plugin for WP Repo Release

Thank you, Ray. I was asking this so that I could add a reply to the CBOX thread you wound up replying to. Let's leave this ticket open for the WP Repo packaging task. Thank you very much!

Scott - We haven't officially added BP Restrict Signup By Email Domain to the list of CBOX plugins yet.

Matt - I've submitted the plugin to wp.org for review. Once it passes review, I'll push it to wp.org.

Bump. Ray, I see (with my magical Plugin Repo Powers) that this plugin was approved, but never uploaded.

I think wordpress.org hasn't updated the plugin info from the readme.txt file yet.

In the meantime, you can check out the Github repo for a screenshot:
