#### Description

Hi -

**from Tsubasa:**

"Greg just informed me that CNAME records for the domain name is now pointed to commons.gc.cuny.edu. Please do let us know if there's any other step that we need to take on our side."

When I go to bkpublicscholars.org, I am directed to the Commons Home Page. It seems that there might be a problem? Wondering if it is on our end or on our member's end. Thanks.
