History

#1 - 2014-09-15 11:02 AM - Matt Gold

- Status changed from New to Assigned
- Target version set to 1.6.16
- Severity set to High impact

#2 - 2014-09-16 03:02 PM - Boone Gorges

- Status changed from Assigned to Testing Required

I've made the change. I chose to put the logic inside of the cac-non-cuny-signup plugin, so that the UI would be seamless with what's already there.

It's now available for testing on cdev: <http://cdev.gc.cuny.edu/register/> Just make sure you're logged out, and attempt to register using an email address from one of the bad addresses. You should get a message just after entering the address, and then you should get an error if you try submitting the form anyway. (It'd be great to get testing on this soon, since I've hijacked cdev for this purpose.)

Worked perfectly in CDev:

"Sorry, that email address is not allowed!"

#4 - 2014-09-17 10:47 AM - Boone Gorges

- Status changed from Testing Required to Resolved

Marilyn and I have cleared up issues over email. Thanks for testing!
