Target version:	Not tracked		
Description			
Hi Scott,			
Just creating a ticket to keep track of what I asked you via email - it would be great if you could set up a draft email (ie, "campaign") in MailChimp using the doc we collaborated on. I've put you in touch with Mark to discuss the graphics. Please feel free to check in with me or Micki (a watcher on this ticket) if you have questions about MailChimp.			
Thanks!

- Target version set to Not tracked

#2 - 2014-09-23 07:40 AM - scott voth

I have created the draft of the email on mail chimp and used the low-res horizontal CBOX logo from cbox.org that Michael supplied awhile back. Let me know what you think.
