Description			
I have made some updates to two files in the MESTC theme. The two files are:			
template-events-page.php (should replace file of same name in root folder of mestc theme)			
default.css (should replace file of same name in mestc -> library -> styles)			
Please let me know if you need any other information in order for this update to be made on the 1st.			
Thanks, Alex			

History

- File *mestc.zip* added

I just realized I forgot to include another file with the update. Instead, I've just attached a zip file of the new mestc theme that should replace the one that's already there. Let me know if this doesn't make any sense. Thanks, Alex!

#2 - 2014-10-01 09:35 PM - Boone Gorges
