CUNY Academic Commons - Bug #3502

"Create a Site" button not working on Blog Page

2014-09-29 08:21 AM - scott voth

Category name:	Blogs (BuddyPress)		**Estimated time:**	0.00 hour
Target version:	1.6.17			

Description

A member reported that the "Create a Site" button is not working on the Blog Page. I tested in Chrome and Firefox, and indeed it is not working. (The workaround is to use My Sites>>Create a Site from the admin bar - that works.)

History

#1 - 2014-09-30 02:17 PM - Boone Gorges

- Category name set to Blogs (BuddyPress)

- Status changed from New to Resolved

- Assignee set to Boone Gorges

- Target version set to 1.6.17

Confirmed. This was being caused by some overly-greedy JS in BP's default scripts. I've resorted to a pretty hideous workaround, where I change the position of the button in the DOM and then fake its position with CSS. This is not something that I plan to put on future resumes.
