Description			
Currently, when I am on the groups page (/groups) and do a keyword search, I see a search wheel spinning in the All Groups tab but the search seems to hang			

History

#1 - 2014-11-10 10:54 AM - Matt Gold

also, the same thing happens when I click the my groups tab

#2 - 2014-11-10 10:58 AM - Boone Gorges

- Status changed from Assigned to Reporter Feedback

I can't reproduce this - tabs are working fine for me. Please clear your cookies and try again. Also, please open a JS console in your browser and let me know if you see any errors.

#3 - 2014-11-10 12:50 PM - Matt Gold

- Status changed from Reporter Feedback to Rejected

Things are working now, so I will close this. Next time, I will try to remember to open up a JS console to document errors. Thanks.
